THURSDAY, NOVEMBER 2, 2023

11:30–12:00

Impact of current gaps and misconceptions in photoprotection on dermatologic health for skin of all color

Sponsored by Eucerin / Beiersdorf

It has long been known that UV radiation harms skin, although most focus has been on those with lighter skin tones (Fitzpatrick skin types I-III), studies are now showing the negative impact of visible light on skin health, particularly in individuals with skin of color (Fitzpatrick skin types IV-VI). This session will highlight the misconceptions about sunlight-related skin damage, highlight the impact of visible light on skin health, and the need for photoprotection in skin of all color.

Objectives:

- Highlight the need for sun care to be personalized based on:
 - Fitzpatrick Skin Type
 - Degree of sun exposure
 - Utility of individual sunscreen formulations & ingredients
- Dispel myths about sun care needs in individuals with skin of color
- Explain the impact that visible light has on all types of human skin
- Increase the knowledge base on the impact of visible light on skin health including:
 - Erythema
 - Photodermatoses
 - Hyperpigmentation
 - Melasma

Moderator:
Joël Claveau

Speaker:
Henri Lim

12:00–13:00

LUNCH

Room: Frontenac Foyer

The Reason is Clear: Elevating Standards of Care in Psoriasis and Atopic Dermatitis

Sponsored by AbbVie, in collaboration with SkinTherapyLetter

Given the evolution from traditional systemic therapies to advanced treatment options in both psoriasis and atopic dermatitis, physicians can aspire to gain control on the disease and optimize patient outcomes. This session will highlight the importance of advanced therapies in treating to higher standards of care and the significant impact it can have on patients' quality of life.

Objectives:

- 1) To agree on the importance of aiming for clear skin with advanced therapies for psoriasis and atopic dermatitis
- 2) To review the 'what, why and how' of IL23i's in the treatment of psoriatic disease
- 3) To review the 'what, why and how' of JAK inhibitors in the treatment of atopic dermatitis

Moderator:
Fiona Lovegrove

Speaker:
Marissa Joseph
Mark Kirchhof

THURSDAY, NOVEMBER 2, 2023

14:00–14:30	Visualizing Skin Health: Navigating The State of Dermatoimaging in 2023 <i>Sponsored by Bausch Health Canada in collaboration with The Chronicle Information Resources</i> <p>In this presentation, two teledermatology experts will give a thorough overview of Dermatoimaging. They will cover its techniques, advanced methods, best practices, and how artificial intelligence and machine learning are being used to deploy and assess skin images. The speakers will explain how these technologies aid in image analysis, diagnosis, and pattern recognition, ultimately enhancing clinical decision-making. Additionally, they will discuss the innovative applications of Dermatoimaging, such as monitoring treatment progress, teledermatology, and data-driven research advancements.</p> <p>Objective: The session will inform delegates on current and emerging uses of Dermatoimaging in clinical practice, with the objective of enhancing patient outcomes.</p>	<p><i>Moderator:</i> Maxime Barakat</p> <p><i>Speaker:</i> Jaggi Rao Anna H. Chacon</p>
14:35–15:25	Diagnostic & Therapeutic Pearls <i>Sponsored by Boehringer</i> <p>In this session, we will be discussing many new treatments that are becoming available, or are being actively studied, for use in the dermatology space for conditions such as pyoderma gangrenosum and generalized pustular psoriasis.</p>	<p><i>Moderator:</i> Charles Lynde</p> <p><i>Speaker:</i> Mark Lebwohl</p>
15:25-15:45	COFFEE BREAK	<p>Room: Frontenac Foyer</p>
15:45–16:35	Navigating the Skincare Maze: A Scientific Guide to Choosing the Right Products for the right patients <i>Sponsored by SkinCeuticals & skinbetter science</i> <p>Navigating the ever-evolving skincare landscape to recommend the most effective products to patients can often feel like maneuvering through a maze. This open session aims to serve as a guide to help physicians make informed choices rooted in scientific evidence.</p> <p>This dynamic session will delve deep into the latest advances in dermatological science, examining the published studies and clinical evidence surrounding antioxidants and retinoids in skincare. The goal is to shed light on the pivotal role these ingredients play in promoting skin health and addressing various skin concerns. Dr. Sam Hanna and Dr. Sonya Abdulla will bring their clinical expertise to explore the art and science of selecting the right products that best cater to individual patient needs.</p> <p>Join this session to enhance your understanding of the latest developments in the skincare field and learn practical tips for making informed, scientifically backed choices in product recommendations for patients.</p> <p>Objective: This session will steer dermatologists through the latest science behind antioxidants and retinoids in skincare. Attendees will gain practical knowledge to make informed, science-backed product recommendations for their patients.</p>	<p><i>Moderator and Speakers:</i> Sam Hanna Sonya Abdulla</p>

THURSDAY, NOVEMBER 2, 2023	16:40–17:10	<p>The Impact of Oat Therapy: Eczema and Beyond Sponsored by Aveeno®</p> <p>This session will highlight the history of oat, the data supporting the mechanism of action of oat in emollients and the clinical efficacy and safety of its use in various skin conditions.</p> <p>Objectives:</p> <ul style="list-style-type: none"> Review the components and the multifaceted benefits of colloidal oatmeal and the research supporting its effect on the moisture barrier. Recognize the skin benefits of colloidal oatmeal by assessing the clinical research in various populations/skin conditions. 	<p>Moderator: <i>Jessica Asgarpour</i></p> <p>Speaker: <i>Marissa Joseph</i></p>
	17:15 – 19:00	DERMATOLOGY UPDATE FALL RECEPTION	Room: Regatta (Hotel Main Lobby)

FRIDAY, NOVEMBER 3, 2023	ADVISORY BOARDS - by invitation only; Breakfast served		
	07:00–10:00	<p>Canadian Dermatology’s Landmark Consensus: Revolutionizing the Toolkit for Evidence-Based Skincare in Treating and Preventing Skin Damage (<i>L’Oreal Medical Aesthetic Skincare</i>)</p>	Room: Queens Quay 2
	08:00–10:00	BioJAMP – Ustekinumab National Ad Board	Room: Bay
	08:00–10:00	SOTYKTU – PSP and Patient Cases – Meeting #3 (<i>BMS</i>)	Room: Queens Quay 1
	08:00–10:00	BREAKFAST	Room: Frontenac Foyer
	10:05–11:25	PLENARY SESSION 2	Room: Frontenac Ballroom <i>Chair: Charles Lynde</i>
	10:05–10:55	Drug Update	<i>Charles Lynde</i>
	10:15–11:00	New and Emerging Therapies for Vitiligo	<i>Iltefat Hamzavi</i>
	11:30–17:00	OPEN PRESENTATIONS & SESSIONS	Room: Frontenac Ballroom
	11:30–12:00	<p>From A (Artificial) I (Intelligence) to A (Atopic Dermatitis) I (Introspective): A Holistic Patient Experience Sponsored by Sanofi</p> <p>With the use of AI software, we will bring case studies to life. The AI will generate an image which illustrates patients' introspective thoughts and feelings at two different points in their treatment journey.</p> <p>Objective: To understand the holistic experiences of patients living with atopic dermatitis and the impact of the condition on their daily lives through AI generated images of case-based outcomes.</p>	<p>Moderator: <i>Carrie Lynde</i></p> <p>Speaker: <i>John Kraft</i></p>

FRIDAY, NOVEMBER 3, 2023

12:00–13:00

LUNCH

Room: Frontenac Foyer

13:05–13:55

Seb D or Not to B? That is the Clinical Question

Sponsored by Arcutis

Join us on a Shakespearean exploration where the many facets of seborrheic dermatitis will be brought to the stage. In the opening act, our expert moderator/director, Dr. Sam (Hamlet) Hanna, will review our present understanding on the multifactorial pathogenesis of this common chronic inflammatory condition. In the following acts, our expert speakers, Dr. Melinda Gooderham, Dr. Daniel Wong, and Dr. Geeta Yadav, will discuss varying clinical points of perspective on the commonalities and differences between seborrheic dermatitis and other inflammatory/pruritic skin conditions with respect to the pathophysiology and clinical presentations. This open session will also examine the efficacy, safety, and tolerability of current topical treatments. The final act will explore new developments in topical treatment for seborrheic dermatitis. Those in attendance at the theatre will gain a better understanding of the treatment strategies and unmet needs in the management of patients with this common chronic inflammatory dermatosis.

Objectives:

- Analyze and review the current understanding of the pathogenesis involved in seborrheic dermatitis
- Discuss the heterogenous clinical presentations of seborrheic dermatitis and other similar inflammatory/pruritic skin conditions
- Examine the benefits and challenges of current treatment options for seborrheic dermatitis and explore future treatment options

Moderator:
Sam Hanna

Speaker:
Melinda Gooderham
Daniel Wong
Geeta Yadav

14:00–14:40

Managing Pain for In-clinic Dermatology and Aesthetic Procedures

Sponsored by Paladin Labs

The standard of care in managing pain for short term dermatology and aesthetic procedures is well established. However, there is a new paradigm for pain management for in-clinic dermatology and aesthetic procedures that you may not yet know.

Objectives:

1. Discuss the pros and cons of treatment options of pain management of short-term in-clinic dermatology and aesthetic procedures
2. Educate and share clinical experience on the efficacy and safety of inhaled analgesic for in-clinic dermatology and aesthetic procedures

Moderator:
Charles Lynde

Speakers:
Benjamin Barankin
Geeta Yadav

14:40-15:00

COFFEE BREAK

Room: Frontenac Foyer

FRIDAY, NOVEMBER 3, 2023

15:00–15:50	<p>Unmet Needs in Atopic Dermatitis: Towards a Mechanistic Understanding <i>Sponsored by Incyte</i></p> <p>Objectives:</p> <ul style="list-style-type: none"> Describe the burden of uncontrolled atopic dermatitis in different patient populations Summarize recent translational discovery underlying itch, and the pathophysiology and phenotypes of AD 	<p><i>Moderator:</i> Mark Kirchhof</p> <p><i>Speaker:</i> Sam Hanna Mark Kirchhof Marni Wiseman</p>
-------------	---	---

15:55–16:25	<p>The Dynamic Skin Barrier: Cleanse, Moisturize, Treat & Protect <i>Sponsored by Neutrogena®</i></p> <p>When you think of the skin what comes to mind? What active ingredients do you recommend to support your patients skin health? The skin barrier proactively works to protect the skin's moisture balance and integrity through several integrated functions. This evolves the skin barrier conversation beyond a brick-and-mortar structure to the sophisticated and complex Dynamic Skin Barrier while reviewing evidence-based ingredient science that matters to you and your patients.</p> <p>Objectives:</p> <ul style="list-style-type: none"> Evaluate the skin barrier as a dynamic sophisticated structure. Analyze the research on products, ingredients and technologies that are gentle, effective and support the dynamic skin barrier. Describe criteria to consider when making product, ingredient, regimen recommendations to patients. 	<p><i>Moderator:</i> Malika Ladha</p> <p><i>Speaker:</i> Sonya Abdulla</p>
-------------	---	--

16:30 – 17:00	<p>Challenges in Treating Skin Reactions in Oncology Patients Receiving Targeted Therapy <i>Sponsored by La Roche Posay</i></p> <p>The aim of the CaSMO group is to address challenges in treating skin reactions in oncology patients receiving cancer therapies by developing practical clinical tools. These tools aim to support all healthcare providers treating oncology patients and survivors, including physicians, nurses, pharmacists, and advanced providers. In this 30-minute presentation, Maxwell Sauder will address recommended CaSMO approaches to four targeted therapy-related cutaneous adverse events: 1) Papulopustular eruptions, 2) Xerosis, 3) Paronychia, 4) Hand and foot skin reaction.</p>	<p><i>Moderator:</i> Charles Lynde</p> <p><i>Speaker:</i> Maxwell Sauder</p>

ADVISORY BOARDS - *by invitation only; Breakfast served*

07:00–10:00 **LEO Pharma National Medical Advisory Board** Room: Queens Quay 1

07:00–10:00 **Vichy Advisory Board** Room: Queens Quay 2

07:00–10:00 **La Roche Posay Wound Care Real World Cases** Room: Bay

08:00–10:00 **BREAKFAST** Room: Frontenac Foyer

10:15–12:15 **OPEN PRESENTATIONS & SESSIONS** Room: Frontenac Ballroom

10:15–10:45 **Crosstalk Live. Interdisciplinary conversations on the safety of JAK inhibitor use in moderate to severe atopic dermatitis** Moderator:
Perla Lansang

Sponsored by Pfizer

Join this engaging talk-show session with a nationally recognized host who engages in real-world conversations with two leading interdisciplinary experts, an infectious disease specialist and a psychiatrist, on two hot topics in atopic dermatitis, namely risk of infections with JAK inhibitor use and psychodermatology. Learn these specialists' perspective on practical questions such as what vaccinations are required and how to counsel the patient on the psychological complications itch brings. Walk away with tips on what is important to communicate to your patients during a short office visit regarding these concerns to improve patient care.

Objectives:

- Integrate the interdisciplinary perspective on the use of JAK inhibitor in moderate to severe atopic dermatitis and concern for risk of infections and vaccination requirements.
- Communicate patient counselling tips on mental health matters that arise with itch when managing moderate to severe atopic dermatitis.

Speaker:
Zain Chagla
Kathryn Fung

10:50-11:20 **PASI or PLAY: Exploring the correlation between PASI score and patient satisfaction in a clinical setting** Moderators:
Vimal Prajapati
Parbeer Grewal

Sponsored by Sun Pharma

There are limited data investigating the correlation between PASI score and patient satisfaction and quality of life. In this session, Dr. Perla Lansang will present a patient case and explore potential relationships between these factors through a panel discussion with Dr. Perry Grewal and Dr. Vimal Prajapati. The session will involve audience participation throughout the session with polling questions, and conclude with an opportunity for the audience to pose questions and/or provide their insights.

Objectives:

- Evaluate the correlation between PASI score and patient satisfaction/quality-of-life in the clinical setting
- Discuss how different factors influence treatment decisions in the management of psoriasis

Speaker:
Perla Lansang

SATURDAY, NOVEMBER 4, 2023

11:25–12:15	<p>Southern Exposure: Clascoterone real-world experiences in the U.S. <i>Sponsored by Sun Pharma</i></p> <p>With the evolving acne treatment landscape and the recent Health Canada approval of acne therapy clascoterone, there remains a need for clinical discussions around the real-world use of current acne treatments. In this session, Dr. Todd Plott will provide insight into the experience of treating acne in the United States, including the use of clascoterone, through presentation and case discussion.</p> <p>Objectives:</p> <ul style="list-style-type: none"> • Understand and describe the clascoterone phase 3 and extension trial data, and how it can be applied to the Canadian acne treatment landscape • Gain perspective and understanding into the real-world treatment of acne with clascoterone based on U.S. experience 	<p><i>Moderator:</i> Charles Lynde</p> <p><i>Speaker:</i> Todd Plott</p>
12:15–14:00	<p>DERM LUNCH PRESENTATIONS</p>	<p><i>Chair: Renée A. Beach</i></p> <p><i>Room: Frontenac Ballroom</i></p>
